

# NHS COVID-19 vaccination programme update

Our GP-led local vaccination service is providing vaccinations to people in cohorts 1-9 and this will continue.

We **will not** be providing a vaccination service for people aged 18 to 49 when they become eligible. If you are in this cohort, you will be able to get your vaccination at other local vaccination services including hospital hubs, community pharmacies and larger vaccination centres

## What this means for you?

### Cohorts 1-9

***Includes those aged 50 and over, health and care workers, unpaid carers and those with a health condition that puts them at greater risk.***

We are continuing to book in people in cohorts 1-9 who have not yet been vaccinated for their first dose and we will carry on doing this to make sure that no-one is left behind.

If you are eligible and haven't had your first dose yet, please contact the practice now to make your appointment.

We will be able to give the second dose to everyone who has had their first dose of the vaccine with us. We will invite you for your second dose when this is due.

### Cohorts 10-12

#### ***People aged 18 to 49***

Vaccinations have been delivered according to [priority groups](#) identified by the Joint Committee of Vaccination and Immunisation (JCVI).

If you are aged 18 to 49, you will be contacted by the NHS when it is your turn and you will be able to choose from a range of local vaccination services including hospital hubs, the larger mass vaccination centres and community pharmacies such as Pharmacy2U at the Village Hotel and the Imaan Pharmacy in Bewsey,

When your age group becomes eligible, you will be able to book your vaccine and choose a local service through the national booking service at [www.nhs.uk/covid-vaccination](http://www.nhs.uk/covid-vaccination) or by phoning 119.

**Please do not contact us to get an appointment.** Information on the vaccine is available on the NHS.UK website.
